

2023 Core Formulary Effective 07/01/2023

The Core Formulary list includes common FDA-approved **generic (Tier 1), brand preferred (Tier 2) drugs and brand non-preferred (Tier 3)** within select therapeutic categories. It is not a complete list of medications, nor may be covered by your plan. Please refer to your benefit plan documents provided by your employer or plan sponsors for benefit coverage and restrictions.

The Core Formulary list is revised periodically as new drugs and new prescribing information becomes available and may change at any time during the year. You may receive notice when necessary. To get an updated formulary information covered by your plan, please contact us at 1-800-710-9341.

RESTRICTIONS/LIMITATIONS

Southern Scripts incorporates drug utilization management programs such as prior authorization, step therapy and quantity limits. Some covered generics and brand medications may enforce these coverage restrictions or limitations.

Prior Authorization (PA): it is a program that promotes the use of safe, effective and reasonably-priced drug therapy. This ensures the member has met specific criteria based on the most current evidence-based medical literature and prescription drugs are prescribed appropriately and are medically necessary. Your healthcare provider is required to provide additional medical information to determine coverage. If your prior authorization is denied, please consult with your healthcare provider if the alternative, preferred drug therapy is appropriate for you.

Step Therapy (ST): it is a program that requires members to initially try preferred, medically proven and less expensive prescription drugs before “stepping up” to more expensive drugs. The goal of step therapy is to control costs and to save dollars for both member and plan. Step Therapy is an automatic process in our system, however, some costly, step therapy drugs will require a prior authorization.

Quantity Limit (QL): it is a program that ensures the drug is prescribed correctly and safely. Generics and Brands may be limited to a certain quantity per month or over a specific amount of time. We use FDA-approved recommendations and clinical guidelines to set our quantity limits. A prior authorization will be required if the drug is beyond our quantity limit and will require documentation as to why you need to exceed the quantity limit.

TIER INFORMATION

Note: Some benefits may require a deductible be met before copays apply. Please refer to your benefit plan documents for additional information.

Generics (Tier 1)- \$

Generics are shown in lower-case and **boldface** type. They are as safe and effective as brands at a reduced cost. Not all generics may be included in the Core Formulary. Some generics are followed by a reference brand drug in (parentheses). The reference brand drug is not classified as a generic, rather the intent is for completion purposes. Specialty Generics are listed as generics and are subject to a specialty generic copay. Restrictions/Limitations (PA, ST, QL) may apply.

Brand Preferred (Tier 2) - \$\$

Brand Preferred Drugs are shown in UPPERCASE. They are a higher cost than generics. Not all brand preferred drugs may be included in the Core Formulary. Specialty brand preferred drugs are listed as brand preferred and are subject to a specialty brand preferred copay. Restrictions/Limitations (PA, ST, QL) may apply.

Brand Preferred (Tier 3) - \$\$\$

Brand Non-Preferred Drugs are shown in UPPERCASE. They are a higher cost than generics and brand preferred drugs. Not all brand non-preferred drugs may be included in the Core Formulary. Specialty brand non-preferred drugs are listed as brand non-preferred and are subject to a specialty brand non-preferred copay. Restrictions/Limitations (PA, ST, QL) may apply.
